Notice of Sprint works on the A34 Birmingham Road

A34 Sprint - bus stop works

Sprint is a bus priority corridor joining the A34 with the A45 to create one continuous route. The main construction works along the A34 part of the corridor between Walsall Town Centre and the Scott Arms junction, are being carried out by Colas Ltd on behalf of Transport for West Midlands (TfWM).

A new bus stop construction is scheduled to commence on 25th June, for approximately 4 weeks. Works will be carried out on the A34 Birmingham Road opposite the Metro Inns Hotel near the Broadway junction.

A34 SPRINT bus stop locations – Area to be cleared and new shelter installed, including new block paving and footway

Please contact us if you require more details.

The Sprint corridor will link Walsall with the centre of Birmingham, Solihull and Birmingham Airport. Sprint will join with other schemes such as the Midland Metro and HS2 to create a truly integrated network. The first phase is due to open in the summer of 2022.

Duration of works

From 25 June for approximately 4 weeks Colas will begin new bus stop construction work.

What to expect

Work will take place from Monday – Friday between 7.30am and 5pm. Please be aware that these times may change.

Noise from on-site machinery and construction vehicles.

What we will do

For the safety of our workforce it will be necessary to install temporary daytime lane restrictions and close some sections of footpaths. Alternative temporary bus stops will be relocated nearby. Access to your property will be maintained during works.

We'll keep all sites safe and secure, keeping disruption to a minimum and ensure all traffic management signs are clearly displayed. We will keep you informed.
