Notice of Sprint works on A34 at Ravensdale Gardens

## Utility works for shelter installation

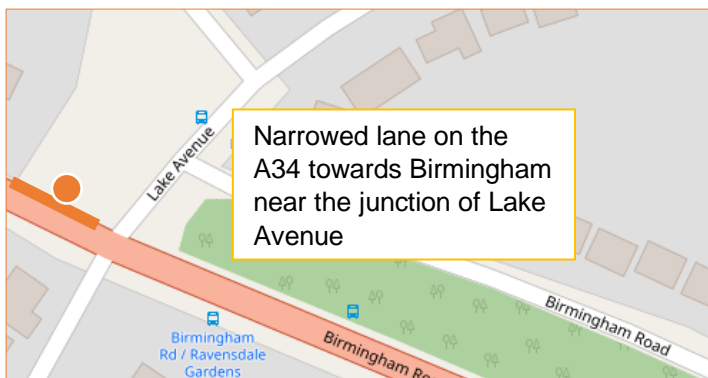

Sprint is a bus priority corridor joining the A34 with the A45 to create one continuous route.

We will be installing new and enhanced bus shelters along the corridor to improve passenger safety and comfort. The new shelter design is a little larger than standard bus stops and will include CCTV cameras.

All new shelters meet the Local Authority's highway safety criteria.

The work will be carried out in three phases beginning with the removal of the existing shelter. Utilities – such as communications cabling – will either be relocated or replaced followed by a temporary reinstatement of the footway and shelter area.

The new shelter will then be installed at a later date as part of other works in the area.

Map data © OpenStreetMap contributors CC-BY-SA. Indicative only.

The Sprint corridor will link Walsall with the centre of Birmingham, Solihull and Birmingham Airport. Sprint will join with other schemes such as the Midland Metro and HS2 to create a truly integrated network. The first phase is due to open in 2022 in time for the Commonwealth Games.

### Duration of works

Work will start on Sunday 13<sup>th</sup> June and take up to three weeks. Please note that times may be subject to change.

### What to expect

Narrowed lane on the A34 towards Birmingham near the junction of Lake Avenue for the duration of these works.

### What we will do

We'll keep all sites safe and secure, keeping disruption to a minimum and ensure all traffic management signs are clearly displayed.
